DID YOU KNOW..?

A treasure map is a tool for explorers.

It shows directions to follow to orient yourself and find the location of treasure or secret places. Its geographical details act as landmarks or clues to avoid getting lost and make sure you know where to go!

NISSA NEEDS YOUR HELP:

"I have the map for Catajima. However, it was partially erased on the boat from all the water. I need your help to find the right path..."

Take your map and draw all the information Nissa describes so she finds the way to lead you to the Temple of CATAJIMA.

"Once you arrive at the port with the navy anchor, follow the path leading to the lighthouse, then follow the west coast until you reach three giant trees attached to an enormous skull-shaped rock. From there, cross through the middle of the island, in between the lake and the volcano. To the south of this passage, very close to the water, there is a village with 3 huts and finally, a few steps to the East, you'll find the Temple of CATAJIMA!"
